

Paper Pinwheel

Paper Pinwheel

powered by

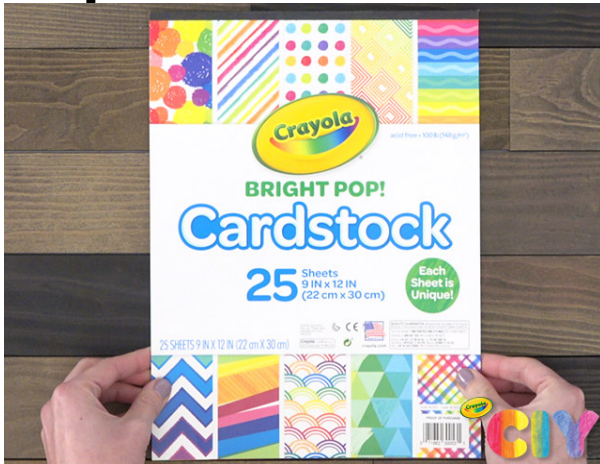

A summer favorite! Learn how to make a pinwheel out of patterned cardstock, then let the DIY Paper Pinwheel spin around & round.

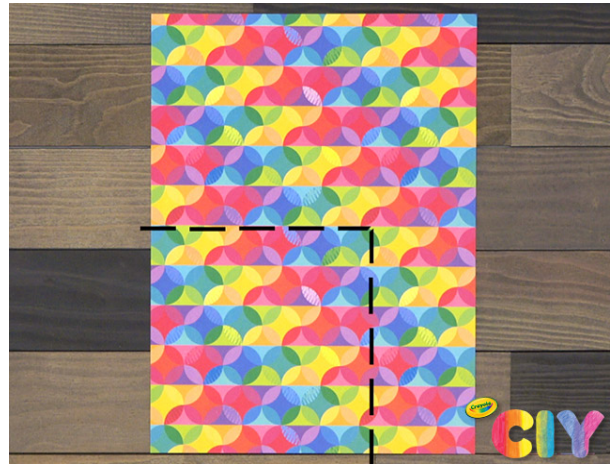

Supplies:

- Crayola Bright Pop! Cardstock
- Crayola Washable Stamper Markers
- Hole Punch
- Paper Straw
- Crayola Scissors
- Ruler
- Brass Fasteners

Steps:

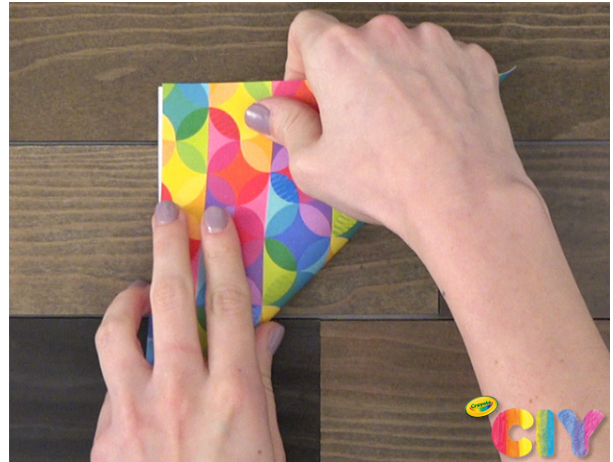

1 Pick your favorite pattern of cardstock.

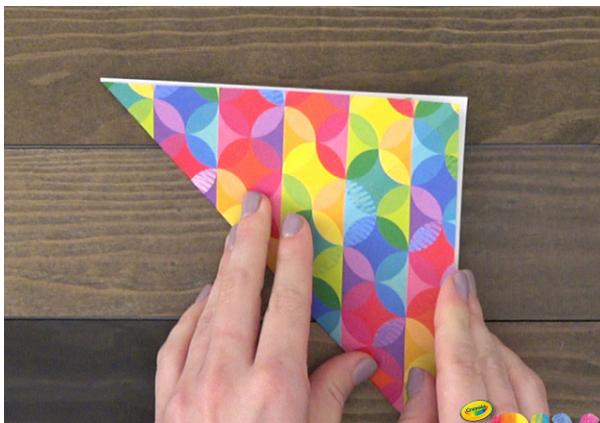

2 Cut out a 6" x 6" section of cardstock.

3 On the non-patterned side, create designs with stampers.

4 With the stamped side facing up, fold the bottom right corner to the top left corner, creating a triangle. Unfold.

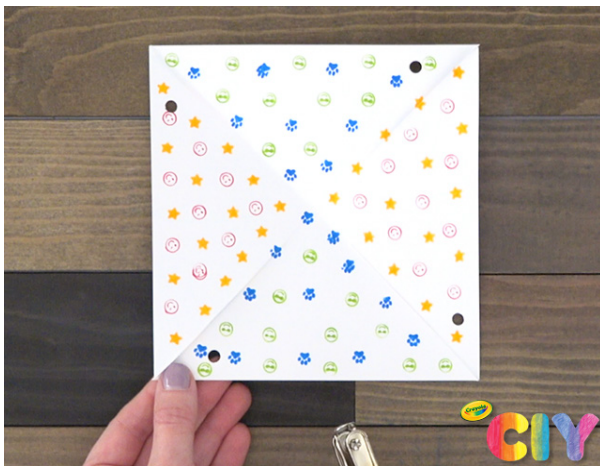

5 Fold the bottom left corner to the top right corner, creating a triangle. Unfold.

6 Cut a 3" slit from each corner toward the center.

7 Punch a hole in the corner to the right of the first slit.

8 Rotate counterclockwise and repeat until each side has a hole punch.

9 Use brass fastener to create a small slit in center of cardstock.

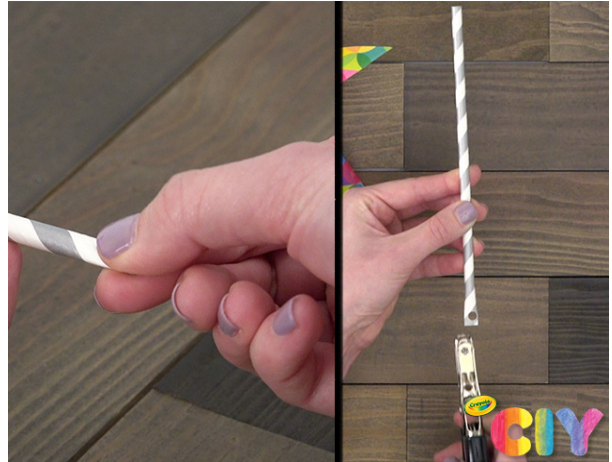

10 Fold punched corners to the center so holes overlap.

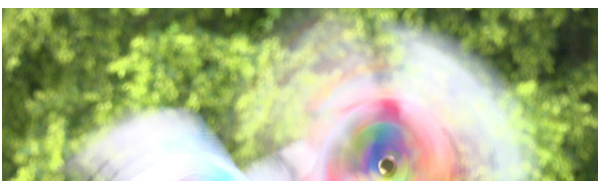

11 Hold in place and insert brass fastener, flattening legs to hold pinwheel in place.

12 Flatten the end of straw and punch hole 1/2" from the end.

13 Place fastener through the hole in the straw and flatten legs to hold in place.

14 Blow pinwheel & watch it spin!

CIY Staff Tips:

- **Keep brass fastener slightly loose to help pinwheel spin faster.**
